### **Background:**

A lethal virus decimated the world's population over 3 years ago.

It's apparent that Monolith Corp was behind the spread of the disease, but because of the disorder left from the billions of lives lost, governments and law enforcement are focusing on keeping order and supporting infrastructure instead of tracking down those responsible.

The World Justice Organization has plans to use their limited resources to prove that Monolith was responsible and rally the international community to bring them down.

Monolith's motives are unclear, but the series of events behind their plan will slowly come together.

You are a PRO, a Primary Retrieval Operator, who will use your set of unique skills to infiltrate the areas of operation, locate the evidence and return it to be processed.

Standing between you and your objectives is the MSF, Monolith Security Forces, whose sole purpose is to protect the interests of Monolith.

It's time for the world to see what they did and how they did it.

Libera iustitia. Gear up, PRO, and move out.

The game is exactly what it says. A true 90's style arcade shooter.

Great music and art. The games challenge is just right, with an option to make it easier and harder for all types of players.

If you're a fan of the genre or just remember playing games like this and enjoying them, you'll definitely get your monies worth..

This game is super awesome! If you are a Persona fan you should buy this!

I wish they will port the Perosna games to the PC too!

+++ ATLUS V SEGA QUALLITY GAME!

10V10. Great 2D puzzle game. Gateways is a little bit of misnomer in that the puzzles aren't just about Portal-style portal guns.. Hordes and hordes of enemies doesnt necessarily mean its fun. Theres really no purpose to this game. The bosses are pretty jank, and the art style has way too many saturated colors. Definitely a game to avoid.. the storyline is hard to get. a point and click gamewhere you have to watch someone else play it before you physically play it in your own time.. I think this is the kind of game that goes over well with VR.. It's simple and well executed. I really enjoyed the plank, I do wish there was more variety, however the dude who made this included some crazy fly around the city with a rocket mode.. Which is really fun. I definately recommend this for a party or if you want to experience flying. Bonus recommend if you are afraid of heights.. As far as time management games go, Gamehouse delivers a great and challenging game. As far as the story goes, if you do not like silly, overly dramatic stories that read like a really bad reality show, then stay away from this game. Normally, I enjoy these stories, but this one really got on my nerves. The only thing that saved me from downvoting this game, was the creativity of the levels themselves. It was fun to see how they incorporated levels like the prison into the story and made it workable (albeit over-the-top). I did like that in this game, they did not put achievements in here that took quite a few hours to achieve. It took half the time to complete this one as opposed to Fashion Fever. I still say the \$12.99 price tag is a bit steep, but thankfully they tend to go half price during the big sales events. If you can wait until they go on sale, that is a much better option.

If you like off roading and rock crawling in 4lo and both axles locked this is a great game to kill the off-road bug when you can't get out there for real! Adjust/change tire pressure, ride height, spring tension, tire size/tread, 4hi, 4lo, lock diffs. Choose the correct line and approach to get over obstacles. If that don't work you got a winch too!. A very poor game. Has no replay value. No story. No value of any kind. No wonder why it's free.. An amazing game lore-wise, music-wise, character-wise, art-wise, gameplay-wise, and pretty much everything-wise.. great game totally cool but the only fact is you have to the things for your aparmen only with currency that cost money. BUT it is still a great game to meat new people. Solid HOG that draws on some of the lesser-known European mythology.. Volume 2 of the cute slice of life VN featuring more catgirls!

Pros:

- Coconut is best girl
- Artwork & music
- Yes, this game allows you to pet the cat

Cons:

- 18+ mode has to be bought separately
